EDUCATIONAL TOURS

Dirt Willy is a family operated, federally registered hatchery specializing in game birds. The hatchery is situated 40 kilometers east of our provincial capital in Edmonton, Alberta.

We are located within an hour's drive of an international airport. The hatchery itself is in operation from April till August, with the balance of the year being taken up with the raising of meat birds & shooting birds.

Every effort is made to have the best possible breeding stock on the premises. Much of our breeding stock is selected from all over North America.

Presently we only ship our products in Canada.
